Rita Evans (b. Vancouver, Canada 1980) and **Julia Mariscal** (b. Barcelona, Spain 1981) are artists based in London. They are both recent graduates of Chelsea College MA in Fine Art - which is where they first started collaborating in 2008. Their individual practises are sculpture and performance based. Julia and Rita began working together as The Objectifiers after a discussion where they discovered a shared interest in time, material narrative and object as process.
